

3-Day CATIA TRAINING in association with TATA TECHNOLOGIES from 22nd to 24th December 2014

3-Day CATIA Training program was organized by Department of Mechanical Engineering for the students of Mechanical Engineering. This program was aimed to cover the basics of Computer Aided Three Dimensional Interactive Application (CATIA). The training was given by experts from TATA TECHNOLOGIES, PUNE. Students received the training very well. Around 30 students benefitted from this training. The practical experience gained during this training will help the students in the final year subject CAD/CAM/CIM where Geometric modeling is dealt in detail in theory as well as in practicals.
