

ThyssenKrupp Industrial Solutions (India) Private Limited, Uhde House, LBS Marg, Vikhroli (W), Mumbai 400 083, India
(Formerly Uhde India Private Limited)

Date: 13th July 2015

To Whomsoever It May Concern

This is to confirm & certify that **Dr. Nilesh Raykar of Sardar Patel College of Engineering**, Andheri West, Mumbai, has successfully conducted a 3 day training programme for our employees on Finite Element Analysis of Pressure Equipment.

Details of the programme are as follows:

Name of Programme: *Finite Element Analysis of Pressure Equipment*

Dates: *July 9th to 11th, 2015 (3 days)*

Venue: *ThyssenKrupp Industrial Solutions (India) Private Limited, Uhde House, Mumbai.*

No. of participants: *25*

Training feedback Summary: *The training was conducted very much to our satisfaction. The training helped in understanding the concepts of Finite Element Analysis in a structured manner. The case studies presented were very relevant and were as per our expectations. They represented the actual scenarios where Finite Element Analysis is generally applied during engineering or during failure analysis.*

Thanking you,

For ThyssenKrupp Industrial Solutions (India) Pvt. Limited.
