International Conference

1. P Rao "Efficient implementation of MPPT and comparison of converter for variable load Solar PV system", Second International Conference on Electrical, Computer and Communication Technologies (ICECCT) pp. 001-006 (2017).
2. P Rao "System modelling and simulation of interconnected wind—PV standalone", Innovations in Power and Advanced Computing Technologies (i-PACT) pp. 001-006 (2017).
3. Dr. Anupa Sabnis "Comparative analysis of different control approaches of direct torque control induction motor drive", International Conference on Intelligent Computing, Instrumentation and Control Technologies (ICICICT) (2017).
4. Dr. Anupa Sabnis "Design and parametric study of active-type resonance HVDC circuit breaker", 7th International Conference on Power Systems (ICPS) (2017).
5. Vishal Dake "Designing of solid state pulse power modulator by fabrication of pulse transformer", 2018 Fourth International Conference on Advances in Electrical, Electronics, Information, Communication and Bio-Informatics (AEEICB) 001-005 (2017).
6. Vishal Dake "Modeling and analysis of split core pulse transformer for solid state pulse power modulator", 2017 Second International Conference on Electrical, Computer and Communication Technologies (ICECCT) 001-006 (2017).
